One Year Price / Volume

We recommend 'BUY' on GNA AXLES LTD for a target of INR 347 - valuing the company at P/E 23x of FY19E Earning.

INVESTMENT RATIONALE:

- GNA supplies variety of rear axle shafts for tractors and CVs for both domestic and export markets.
- GNA is also planning to venture into production of axles for LCV and SUVs for both domestic and international markets.
- Leader in domestic Rear axle manufacturing.
- Diversified products range and robust clientele.
- Higher capacity utilization to improve margins.
- Gradual recovery in European and American economies will drive export growth.
- GNA has developed long term relationship with its clients, which include prominent OEMs like M&M, Escorts, John Deere, etc.
- Diversified geographic presence & marquee clientele.
- GNA is a leading axle shafts player with long term customer relationships.
- GNA enjoys a reasonably good balance sheet and both Topline and Bottomline growth is likely to remain strong going ahead.

VALUATIONS AND VIEW:

GNA is a leading player in automotive axle space having exposure both in domestic and international market with few of the large OEMs and Tier-1 clientele. It is expected to gain significantly on account of CV cycle recovery (both domestic and export markets) and bounce back in tractor sales. We value the business at 23x FY19E EPS and recommend a BUY rating on the stock with a target price of INR 407 per share.

RISK & CONCERS

- **High client concentration** – GNA earns ~40% of its domestic revenue and ~50% of its exports revenue from top 10 domestic and international clients respectively. The loss couple of these clients can severely impact the top line for company.
- **Currency fluctuation risk** – GNA’s revenue from exports is >50% which makes it vulnerable to currency fluctuations. Any adverse movement of currency can lead to significant decline of revenue going ahead.
- **Higher raw material prices** - Any price fluctuations in steel due to supply side disruption could impact its margins in short term because passing on its impact takes some time.
- **Interest Rates:** If Federal Reserve Bank increases the interest rates, it will negatively affect the demand of automobiles in the market
- **Exposure to European markets** - subject to numerous political and economic risks will affect the major players negatively

COMPANY BACKGROUND:

Established in 1993, it is one of India’s leading rear axle shafts manufacturer. It products find applications across on-highway vehicles (LCV, MCV, HCV and buses, among others) and off -highway vehicles (agricultural tractors and machinery, forestry, construction equipment, defence and mining, among others). It also manufacture solid and hollow spindles used in assembling the axle for various vehicles and equipment.

Products are widely consumed world over by the leading OEM manufacturers across USA, Sweden, Turkey, Brazil, Italy, Germany, Spain, Mexico, Japan, UK, France, China and Australia, among others. Besides, it is also tier 1 suppliers to several Indian OEMs. Its two state-of-the-art manufacturing facilities are located in Mehtiana (District Hoshiarpur) and Gulabgarh Jattan (District Kapurthala) in Punjab with a total annual capacity of 2.30 Million rear axle shafts, 0.40 Million other shafts and 0.30 Million spindles.

Products-

- Rear Axle Shafts
- Spindles
- Splined Shafts

INDUSTRY OVERVIEW:

Over the last decade, the Indian automotive component industry witnessed a robust growth on account of increased investments by automotive OEMs in India, technical capabilities and low cost advantage. According to Automotive Component Manufacturers Association of India (ACMA), the Indian Automotive sector is expected to be among the world’s top 3 in the next few decades. Auto Components Exports are projected to touch ~4.5 lakh crore by FY26 whereas the domestic sales of the auto components is expected to touch around ~5 lakh crore. The government’s Automotive Mission Plan 2016-26 is one of the major growth drivers behind this. It will drive the ‘Make in India’ campaign. The campaign’s focus will mainly be on exports of small cars, multi-utility vehicles (MUVs), two and three wheelers and automotive components.
