Markets to get a cautious but green start; Infosys numbers eyed

The Indian markets strengthened further in last session on expectations surrounding Q3 earnings and the upcoming Union Budget that helped investors shrug off mixed global cues.

The Index of Industrial Production rose to a 13-month high of 5.7% in November, belying expectations of an adverse impact from demonetization and against a contraction of 1.8% in October, mainly due to base effect.

On the global front, Asian markets ended mostly in red on Thursday, with Japanese shares coming under heavy selling pressure, after President-elect Donald Trump failed to provide clarity on future fiscal policies in a highly-awaited press briefing.

Back home, finally, the BSE Sensex surged 106.75 points or 0.39% to 27247.16, while the CNX Nifty rose 26.55 points or 0.32% to 8,407.20.
