Markets to make pessimistic start ahead of RBI's decision

Indian equity benchmarks ended lower for third straight session on Tuesday, as sentiments remain dampened on the back of disappointing services sector data.

Today, the markets are likely to make pessimistic start as investors await the Reserve Bank of India's (RBI's) bi-monthly policy outcome later in the day. The street is expecting the central bank to keep the repo rate unchanged at 6 percent despite uncertainty on the impact of some key inflationary risks.

Traders also shrugged off report from International Monetary Fund which highlighted that India, the \$2.85 trillion economy is currently the 7th largest in the world in terms of Gross Domestic Product, and all it needs is to add \$90 billion to conquer not only the United Kingdom but also France.

Finally, the BSE Sensex declined 108.68 points or 0.31% to 34,903.21, while the CNX Nifty was down by 35.35 points or 0.33% to 10,593.15.
